PROFIL

A Software Engineering graduate from SMK Taruna Bhakti with internship experience at PT Integrasi Jaringan Ekosistem (WEAVE). During my internship, I collaborated within a team to develop and complete a website project. I possess strong skills in teamwork, leadership, and ensuring projects align with established goals. In addition to my software development background, I have hands-on experience in networking and system administration, such as hosting a website (jkd.danbildad.my.id) on Proxmox using an Ubuntu VM and integrating it with Cloudflare. I also have teaching experience in Cisco Packet Tracer, Ubuntu Server, and Flutter. I am passionate about continuous learning and development in the field of technology.

WORK EXPERIENCE

PT Integrasi Jaringan Ekosistem

August 2022 – February 2023

Intern – Full Stack Developer

- Led a team in the development of a web application using Laravel as the primary backend.
- Managed the MySQL database, including schema creation, querying, and database performance optimization.
- Implemented a simple real-time chat feature using Vue.js to enhance the user experience.
- Coordinated with the team to ensure the project progressed according to the established timeline and standards.

Advanced Computer System Laboratory

September 2024 – Present

Laboratory Assistant

- Managed web hosting and system administration, including deploying jkd.danbildad.my.id on Proxmox (Ubuntu VM), integrating with Cloudflare, and contributing to laboratory network infrastructure and website modules
- Taught and guided practicum courses: Mobile System Computing (Flutter & Golang), Basic Networking (Cisco Packet Tracer), and Advanced Networking (Linux Ubuntu).
- Mentored IoT projects using ESP32, Firebase, and Flutter, covering real-time data collection, data storage in Firestore, and visualization in mobile applications.

EDUCATION

Gunadarma University

August 2023 – Present

D3 Computer Engineering (GPA Semester 1 – 4: 3,91/4.00)

SMK Taruna Bhakti

June 2020 – May 2023

Software Engineering (GPA: 85,30)

CERTIFICATION

- Information Technology Specialist Database
- Junior Web Developer
- Learn to Build Web Apps with React
- Learn Web Application Fundamentals with React
- Bootcamp Online Become Engineer

SKILLS

- **Soft Skill:** Adaptability, Creativity, Innovation, Time Management, Leadership
- **Hard Skill:** HTML, CSS, JavaScript, Laravel, PHP, MySQL, Vue.js, Dart, Flutter, Go, Tailwind, React, Inertia, Routing Cisco Packet Tracker, C ++ Arduino, Nginx, Ubuntu Server, CloudFlare
- **Application:** VsCode, Postman, pgAdmin, Microsoft Word, Android Studio, Cisco Packet Tracker, Putty, Virtual Box, Proxmox
